COLLEGE STUDENT PERSONNEL INSTITUTE

A quarterly publication of abstracts related to college students and college student personnel services has been initiated by College Student Personnel Institute. The publication is a response to the need for such a service expressed by the Council of Student Personnel Associations. The abstracts are drawn from professional journals in education, psychology, sociology, and related areas, from papers read at professional meetings and conferences, and from research reports. They are extensive enough — ranging up to 400 words — to give the major content of the original article.

The first issue will be published in October, 1965, and will include abstracts published July - September, 1965. Subscriptions may be ordered from College Student Personnel Institute, Claremont, California. CSPI is a private nonprofit association of more than 50 colleges for information exchange, training, and research in college student personnel work.
